## CORRECTIONS

| DATE | TABLE | DIVISION | STATION | CORRECTION |
|---|---|---|---|---|
| November 1978 | Monthly Summarized Station and Divisional Data | South Coast Drainage 06 | Palomar Mt Observatory | Maximum depth of snow on ground, missing. |
| November 1978 | Snowfall and Snow on Ground | South Coast Drainage 06 | Palomar Mt Observatory | Snow on the ground on 11th, missing. |
| June 1979 | Monthly Summarized Station and Divisional Data | Sacramento Drainage 02 | Mineral | Average temperature, 55.0. |
| June 1979 | Monthly Summarized Station and Divisional Data | South Coast Drainage 06 | Canoga Park Pierce Col | Average maximum, 91.7. Average temperature, 72.5. |
| June 1979 | Daily Temperatures | South Coast Drainage 06 | Canoga Park Pierce Col | Maximum on 2d, 82. Average maximum, 91.7. |
| October 1979 | Daily Precipitation | San Joaquin Drainage 05 | Delano | Total, .48. Amount on 1st, .12; 20th, .33; 26th, .03. |
| October 1979 | Monthly Summarized Station and Divisional Data | San Joaquin Drainage 05 | Porterville | Total precipitation, .40. Departure from normal, -.02. Greatest day of precipitation, .26; date, 20th. Number of days with precipitation .10 or more, 2. |
| October 1979 | Daily Precipitation | San Joaquin Drainage 05 | Porterville | Total, .40. Amount on 20th, .26; 26th, .02. |
| October 1979 | Daily Precipitation | South Coast Drainage 06 | Topanga Patrol Station FC6 | Total, .80. Amount on 20th, .80. |
| October 1979 | Daily Precipitation | South Coast Drainage 06 | Walnut Ptl station FC 102C | Total, .98. Amount on 20th, .98. |
| November 1979 | Evaporation and Wind | North Coast Drainage 01 | Willow Creek 1 NW | Maximum water temperature on 29th, missing. |

See Reference Notes Following Station Index

# REFERENCE NOTES

This Bulletin is prepared in Cooperation with Department of Water Resources, State of California

Additional information regarding the climate of this State may be obtained by writing to the National Climatic Center, Federal Building, Asheville, N.C. 28801, or to any Weather Service Office near you. Additional precipitation data are contained in the "HOURLY PRECIPITATION DATA" for this State.

DIMENSIONAL UNITS: Unless otherwise indicated, dimensional units used in this bulletin are: Temperature in °F, precipitation and evaporation in inches and wind movement in miles. Monthly degree day totals are the sums of the negative departures of average daily temperatures from 65°F. In "Supplemental Data" table directions entered in figures are tens of degrees. Resultant wind is the vector sum of wind directions and speeds divided by the number of observations.

OBSERVATION TIME: The Station Index shows observation times in local standard time. During the summer months some observers take the observations on daylight saving time. Snow on ground in the "Snowfall and Snow on Ground" table is at observation time for all except National Weather Service Offices and FAA stations. For these stations snow on ground values are at 4:00 a.m., p.s.t., except for Bishop WSO, Blue Canyon WSO, and Sandberg WSO, which are taken at 6 a.m., p.s.t., and Mt. Shasta WSO at 8:00 a.m., p.s.t. Data in the "Extremes" table, "Daily Precipitation" table, "Daily Temperature" table, "Evaporation and Wind" table, and snowfall in the "Snowfall and Snow on Ground" table, when published, are for the 24 hours ending at time of observation.

EVAPORATION is measured in the standard Weather Service-type pan of 4-foot diameter unless otherwise noted below in the "Evaporation and Wind" table. Max and Min values in the "Evaporation and Wind" table are extremes of temperature of water in pan as recorded during 24 hours ending at time of observation. Wind is the total wind movement in miles over the evaporation pan as determined by a continuous anemometer recorder located 6-8 inches above the pan.

WATER EQUIVALENT values published in the "Snowfall and Snow on Ground" table are the water equivalent of snow, sleet, or ice on the ground. Samples for obtaining measurements are taken from different points for successive observations; consequently, occasional drifting and other causes of local variability in the snowpack may result in apparent inconsistencies in the record. Time of observation 10:00 a.m., p.s.t.

SNOWFALL: Entries of snowfall in the "Monthly Summarized Data" table, the "Snowfall and Snow on Ground" table, and in the "Seasonal Snowfall" table, include snow and sleet. Entries of snow on ground include snow, sleet, and ice.

NORMALS for all stations are climatological standard normals based on the period 1941-1970.

DIVISIONS, as used in this publication, became effective with data for January 1941.

STATION NAMES: Figures and letters following the station name, such as 12 SSW, indicate distance in miles and directions from the post office.

SEASONAL TABLES: Monthly and seasonal snowfall and heating degree days for the 12 months ending with the preceding June data will be carried in the July issue of this bulletin.

EVAPORATION AND WIND TABLE: Friant Government Camp : Pan screen covered.

DAILY SOIL TEMPERATURE TABLE:

| | Soil Type | Soil Cover | Degree of Slope |
|---|---|---|---|
| Brawley 2 SW | : Holtville silty clay | Grass | 0% |
| Davis 2 WSW Exp Farm | : Sandy loam | Bare | 2% |
| Fresno WSO AP | : Atwater sandy loam | Bare | 0% |
| Indio U.S. Date Garden | : Sandy loam | Bare | 0% |

LATE REPORTS AND CORRECTIONS will be carried only in the June and December issues of this bulletin.

INTERPOLATED VALUES for monthly precipitation totals may be found in the annual issue of this publication.

IN THE DATA TABLES THE SYMBOLS AND LETTERS WHEN USED INDICATE THE FOLLOWING:

- \- No record in the "Supplemental Data" table, "Daily Precipitation" table, "Evaporation and Wind" table, "Snowfall and Snow on Ground" table, "Daily Soil Temperatures" table.
  No record in the "Monthly Summarized Data" table and the "Daily Temperature" table is indicated by no entry.
- \+ And also on an earlier date or dates.
- ++ Highest observed one minute windspeed. This station is not equipped with an instrument to measure fastest mile data.
- * Amount included in following measurement, time distribution unknown.
- // Gage is equipped with a windshield.
- ǂ Extreme occurred at station with incomplete data which may have been exceeded.
- B Adjusted to a full month.
- D Water equivalent of snowfall wholly or partly estimated, using a ratio of 1 inch water equivalent to every 10 inches of new snowfall.
- M One or more days of record missing; if average value is entered, less than 10 days record is missing. See "Daily Temperature" table for detailed daily record. Degree day data, if carried for this station, have been adjusted to represent the value for a full month.
- R Amounts from recording gage. (These amounts are essentially accurate but may vary slightly from the amounts to be published later in Hourly Precipitation Data.)
- T Trace, an amount too small to measure.
- V Includes total for previous month.

IN THE STATION INDEX THE SYMBOLS AND LETTERS WHEN USED INDICATE THE FOLLOWING:

- AR This entry in time of observation column in Station Index means after rain.
- C Recording Rain Gage Station. Hourly precipitation values are processed for special purposes, and are published later in the "Hourly Precipitation Data" bulletin. If daily amounts are published in "Climatological Data" bulletin they are from a separate non-recording gage, except where indicated by reference 'R'. Such amounts may differ from amounts published from the recording gage in the "Hourly Precipitation Data" bulletin.
- G "Soil Temperature" table.
- H "Snowfall and Snow on Ground" table. Omission of data in any month indicates no snowfall and/or snow on ground in that month.
- J "Supplemental Data" table.
- SS This entry in time of observation column in Station Index means observations made near sunset.
- VAR This entry in time of observation column in Station Index means variable.
- # Thermometers are generally exposed in a shelter located a few feet above sod-covered ground; however, this reference indicates that the thermometers are exposed in a shelter located on the roof of a building.

Stations appearing in the tables with no data were either missing or received too late to be included in this issue.

General weather conditions in the U.S. for each month are described in the CLIMATOLOGICAL DATA NATIONAL SUMMARY and STORM DATA.

Information concerning the history of changes in locations, elevations, exposure, etc., of substations through 1955 may be found in the publication "Substation History" for this State, price $1.25. Similar information for regular National Weather Service Offices may be found in the latest annual issue of Local Climatological Data, price 30 cents. Note minimum charge and ordering instructions below.

Subscription Price: $5.85 per year for each section including annual summary; $13.00 foreign; 45¢ single copy; $1.00 foreign; 45¢ annual summary; $1.00 foreign. There is a minimum charge of $3.00 for each order of shelf-stocked issues of publications.
Make checks payable to Department of Commerce, NOAA; send payments and orders to: National Climatic Center, Federal Building, Asheville, N.C. 28801.

The Center for Advanced Engineering Study at the Massachusetts Institute of Technology

in cooperation with

The Climate Research Board Panel of the National Research Council

## About This Conference

For the past year, the National Research Council, under the sponsorship of several federal agencies, has been studying how people plan courses of action when faced with the uncertainties of climate and weather. Methods and approaches of planning originally used in specific fields were discovered to have applications on a much broader scale.

In light of these findings, the Center for Advanced Engineering Study at MIT, in cooperation with the Climate Research Board Panel of the National Research Council, is sponsoring this three day conference to present specific applications of planning around climatic risk in such areas as agriculture, air transportation, snow management, offshore drilling, heating fuel consumption and electric transmission.

Designed for anyone whose decisions are affected by climatic conditions, the conference will also offer a forum for discussion for those who collect and apply climatological data. Presentations will involve both theory and practice, and the latest advances in decision analysis and computer simulation will be applied to hypothetical problems and practical decision-making.

For those who would like to meet in small groups with the conference speakers, special dining sections will be set up on Wednesday evening to allow attendees to informally discuss and share ideas, experiences and individual problems.

At the conclusion of the program, the National Research Council Panel will present the findings of their study. It is the sincere hope of the conference organizers that by drawing together those who gather and those who apply climatological data, better methods for determining more effective and less risky plans of action will result.

## Topics to be Highlighted at the Conference Include:

- How to structure a decision involving uncertain weather
- Methods for using climatological data in specific areas which may be applied to other fields
- Improved operational planning to minimize disruptions due to weather
- Computer based techniques for determining climatic risks
- The economics of weather uncertainty
- Improved warning systems
- Management of water supply systems

## Benefits to Expect From Attendance

- Learn improved techniques of using computers to create model operations
- Share experiences with other decision-makers who face similar problems with weather
- Hear the latest findings of the National Research Council
- Learn how to apply the latest methods of decision-making analysis to practical problems
- Discover the available resources to aid in planning around the weather

## Program

### Tuesday Morning, May 27

**Session I (Plenary)**

Welcome and Introduction

- Welcoming Address
  Myron Tribus
  *Massachusetts Institute of Technology*
- Keynote Address
  Robert M. White
  *National Research Council*
- Overview of Decision Analysis
  Alvin Drake
  *Massachusetts Institute of Technology*

### Tuesday Afternoon, May 27

**Session II-A**

Operational Use of Climate Information

- "Climatic Data Processed for Operational Decisions"
  William H. Haggard
  *Climatological Consulting Corporation*
- "Impacts and Use of Climatological Information in the Hail Insurance Industry"
  Stanley Changnon, Jr.
  *Illinois State Water Survey*
  E. Ray Fosse
  *Crop-Hail Insurance Actuarial Association*
- "Applications of Climatology to Air Force and Army Operational Planning"
  Major Brian Galusha
  *United States Air Force*

**Session II-B**

Value of Climate Information in Decision Making

- "Assessing the Value of Climate Information"
  Robert L. Winkler
  *Indiana University*
  Allan H. Murphy
  Richard W. Katz
  *Oregon State University*
- "New Decision Models for Adjusting to Hazardous Events (with applications)"
  Harold C. Cochrane
  Thomas McKee
  *Colorado State University*
- "Economic Impacts of Climate and Climate Information"
  Amos Eddy
  *University of Oklahoma at Norman*
  J.B. Jalickee
  J.T. Sullivan
  Norton D. Strommen
  *National Oceanic and Atmospheric Administration*

## Wednesday Morning, May 28

**Session III-A**

Climate Information Applied to Energy Operations

- "Importance of Climate and Climate Forecasting to Offshore Drilling and Production Operations in the Petroleum Industry"
  Robert A. Stacy
  *Mobil Research and Development Corporation*
- "Seasonal Climate Forecasts and the Management of Oil and Gas Resources"
  Edith Brown Weiss
  *Georgetown University Law Center*
- "The Effect of Wind and Ice Loading on Electricity Transmission"
  William B. Bendel
  *Environmental Research and Technology, Inc.*

**Session III-B**

Climate Information Applied to Agricultural Operations

- "Use of Climatic Data to Schedule Irrigations"
  Paul E. Fischbach
  *University of Nebraska at Lincoln*
- "Economics of Snow Management for Dryland Agriculture"
  W.O. Willis
  *U.S. Department of Agriculture*
  M.D. Skold
  J.R. Snyder
  *Colorado State University*
- "The Use of Climatic Sets in Relationship to Other Data Sets for the Purpose of Projections of Maize Maturity Harvest Periods and Grain Drying Energy Needs"
  James E. Newman
  *Purdue University*

## Wednesday Afternoon, May 28

**Session IV-A**

Climate and Energy Decisions

- "Statistical Quantification of Climatic Projections for Energy Operations"
  Henry Warren
  Sharon K. LeDuc
  Clarence M. Sakamoto
  Norton D. Strommen
  Donald L. Gilman
  *National Oceanic and Atmospheric Administration*
- "Computer Simulation of an Interstate Natural Gas Pipeline System with Various Climatic Scenarios to Determine Adverse Risk in a Regulatory Setting"
  John E. Moriarty
  *Federal Energy Regulatory Commission*
- "Heating Fuel Demand Forecasting by Use of Average Temperature Outlook Data"
  Richard L. Lehman
  *National Oceanic and Atmospheric Administration*

**Session IV-B**

Climate and Agriculture Decisions

- "Evaluating Farming System Feasibility and Impact Using Crop Growth Models and Climate Data"
  Jerry Arkin
  *Texas Agricultural Experiment Station*
- "Climatic Inputs Into Annual Acreage Set-aside Decisions of the U.S. Department of Agriculture"
  John Waelti
  *University of Minnesota*
  Sylvan Wittwer
  *Michigan State University*
  Paul Meyers
  *U.S. Department of Agriculture*
- "The Use of Risk Analysis to Analyze the Economics of Supplemental Irrigation in Humid Areas"
  Billy J. Barfield
  W.L. Palmer
  *University of Kentucky*
  C.T. Haan
  *Oklahoma State University*

## Thursday Morning, May 29

**Session V-A**

Climate and Investment Decisions

- "Extreme Wind Speeds and Structural Failure Risks"
  Emil Simiu
  *National Bureau of Statistics*
- "Microclimate and Mesoclimate Siting and Design for Energy Conservation"
  Charles Knuth
  *National Park Service*
  Edward Arens
  *National Bureau of Standards*
  Peter Sinsen
  *Tennessee Valley Authority*
- "The Value of Remotely Sensed Ocean and Arctic Region Data for Marine Transportation"
  Bernard P. Miller
  S.W. McCandless
  *ECON, Inc.*

**Session V-B**

Drought Risks

- "Drought Risk and Human Response"
  Norman J. Rosenberg
  *University of Nebraska at Lincoln*
  Richard Warrick
  *Clark University*
- "Early Warning Assessments of Drought Used by the U.S. Agency for International Development"
  Paul F. Krumpe
  *U.S. Department of State*
  Norton D. Strommen
  Malcolm Reid
  *National Oceanic and Atmospheric Administration*
  Francis P. Bretherton
  *National Center for Atmospheric Research*
  Robert W. Kates
  *Clark University*
- "Agricultural Drought Assessment by Daily Soil Moisture Predictions"
  Keith E. Saxton
  *U.S. Department of Agriculture*

## Thursday Afternoon, May 29

**Session VI-A**

Climatic Risks of Energy Production

- "Decision Analysis of Long-term Climatic Change Due to Energy Production"
  David Kellermeyer
  Ronald Whitfield
  Thomas D. Wolsko
  *Argonne National Laboratory*
- "The Risks of Fossil Fuels and Atmosphere $CO_2$"
  Ralph M. Rotty
  *Oak Ridge Associated Universities*

**Session VI-B**

Climatic Risks and Watershed Management

- "Management of the Columbia River Watershed"
  Robert G. Fleagle
  *University of Washington*
  Allan H. Murphy
  *Oregon State University*

- "Management of the Colorado River Watershed"
  Charles W. Howe
  *University of Colorado*
  Allan H. Murphy
  *Oregon State University*

**Session VII (Plenary)**
Review and Conclusion
- Concluding address
  Sylvan Wittwer
  *Michigan State University*

## Registration Information

**Registration:** Mail in the completed registration form or telephone the Seminar Office in the Center for Advanced Engineering Study at MIT at (617) 253-7406 to register. Early registration is recommended as enrollment is limited, and confirmations will be sent within 24 hours of registration receipt. Last minute registration at the conference is not permitted.

**Fee:** The registration fee for "Climate and Risk" is $180.00. This fee, which must be received before the opening of the program, includes the cost of written materials, a book of abstracts, and coffee breaks. Lunch, dinner and hotel accommodations are not included.

**Location and accommodations:** "Climate and Risk" will be held at the Key Bridge Marriott Hotel, located just five miles from downtown Washington, D.C. at 1401 Lee Highway, Arlington, VA 22209. Phone: (703) 524-6400. Sleeping rooms have been blocked at the hotel and attendees must make all accommodation arrangements themselves. Please identify yourself as a participant of this conference to receive special room rates. **All reservations must be made four weeks prior to the first day of the conference to guarantee lodging.**

**Special informal dinner:** An optional dinner will be held on Wednesday, May 28, for all those attendees who would like to meet in small informal groups with the conference speakers. Since different topics will be addressed in each of the groups, we ask that you check off on the registration form your specific area of interest or telephone the Seminar Office with this information. Dinner reservations **must** be made by April 1. Further information will be sent to those who plan to participate in the dinner.

**Cancellation policy:** Should you be unable to attend the conference following your registration, the Seminar Office will refund your full fee up until 24 hours before the start of the program. Transfers or substitutions may be made at any time, however, no refunds of the registration fee will be made to those who arrive late or leave before the conference has ended.

**Tax deductions:** An income tax deduction may be taken for educational expenses directed at maintaining and improving one's professional skills. These expenses include registration fees, travel, meals, and lodgings. (See Treas. Reg. 1.162-5.)

**Attendance is limited. Please register early.**

**Make all checks payable to MIT-CAES.**

The Massachusetts Institute of Technology admits students of any race, color, sex, religion, national and ethnic origin to all rights, privileges, programs, and activities generally accorded or made available to students at the Institute. It does not discriminate against individuals on the basis of race, color, sex, religion, national and ethnic origin in administration of its educational policies, admission policies, scholarship and loan programs, and athletic and other school administered programs, but may favor U.S. citizens or residents in admissions and financial aid.

The Institute has created and implemented and will continue to implement an affirmative action plan expressing its commitment to the principle of equal opportunity in education.

# REFERENCE NOTES

This Bulletin is prepared in Cooperation with Department of Water Resources, State of California

**Additional information regarding the climate of this State may be obtained by writing to the National Climatic Center, Asheville, N.C. 28801, or to any National Weather Service Office near you. Additional precipitation data are contained in "HOURLY PRECIPITATION DATA" for this State.**

AVERAGES: **Division averages in the annual issue include delayed and corrected data and may differ slightly from values published in monthly issues.**

DIMENSIONAL UNITS. Unless otherwise indicated, dimensional units used in this bulletin are: Temperature in °F, precipitation and evaporation in inches, and wind movement in miles.

EVAPORATION is measured in the standard Weather Service-type pan of 4-foot diameter unless otherwise noted below in the Evaporation and Wind table. Max and Min values in the Evaporation and Wind table are monthly averages of daily extremes of temperature of water in pan as recorded during 24 hours ending at time of observation. Wind is the total wind movement in miles over the evaporation pan as determined by a continuous anemometer recorder located 6-8 inches above the pan.

NORMALS for all stations are climatological normals based on the period 1941-1970. "DEP" in Table 4 refers to departures from long-term means based on periods varying from 10 to 29 years which are used in place of normals.

DIVISIONS, as used in this publication, became effective with data for January 1941.

STATION NAMES: Figures and letters following the station name, such as 12 SSW, indicate distance in miles and direction from the post office.

LATE REPORTS AND CORRECTIONS will be carried in the June and December issues of Climatological Data.

DAILY SOIL TEMPERATURES TABLES: Included are all soil temperature stations with any data published for the calendar year, whether or not opened or closed during the year. See the reference notes of the monthly issues for information on individual stations as to soil type, ground cover, and degree of slope.

N THE DATA TABLES THE SYMBOLS AND LETTERS WHEN USED INDICATE THE FOLLOWING:

\- No record.

$ Indicates standard normals used for departures.

\+ Also on earlier date (dates) or months.

* Amount included in following measurement.

// Gage is equipped with a windshield.

A Data collected by radio telemetry.

B Adjusted to a full month.

E Amount is wholly or partially estimated.

M One or more days record missing; if average value is entered, less than 10 days record is missing. See monthly Climatological Data for detailed daily record.

R Amounts from recording gage. (The amounts are essentially accurate but may vary slightly from the amounts to be published later in Hourly Precipitation Data.)

T Trace, an amount too small to measure.

V Includes total for previous month. V in annual column means total is for a two-year period.

N THE STATION INDEX THE SYMBOLS AND LETTERS WHEN USED INDICATE THE FOLLOWING:

\# Thermometers are generally exposed in a shelter located a few feet above sod covered ground; however, the reference indicates that the thermometers are exposed in a shelter located on the roof of a building.

‡ DRAINAGE CODE: 1-AMERCIAN 2-CALAVERAS 3-CARSON 4-CENTRAL COAST 5-COLORADO 6-DESERT 7-EEL 8-FEATHER 9-KAWEAH 10-KERN 11-KINGS 12-KLAMATH 13-LOS ANGELES 14-MERCED 15-MOJAVE 16-MOKELUMNE 17-NORTH COAST 18-N.E. C Data for recording rain gage stations processed for special purposes and published in Hourly Precipitation Data. Length of record for recorder-only stations may be found in the annual issue of Hourly Precipitation Data.

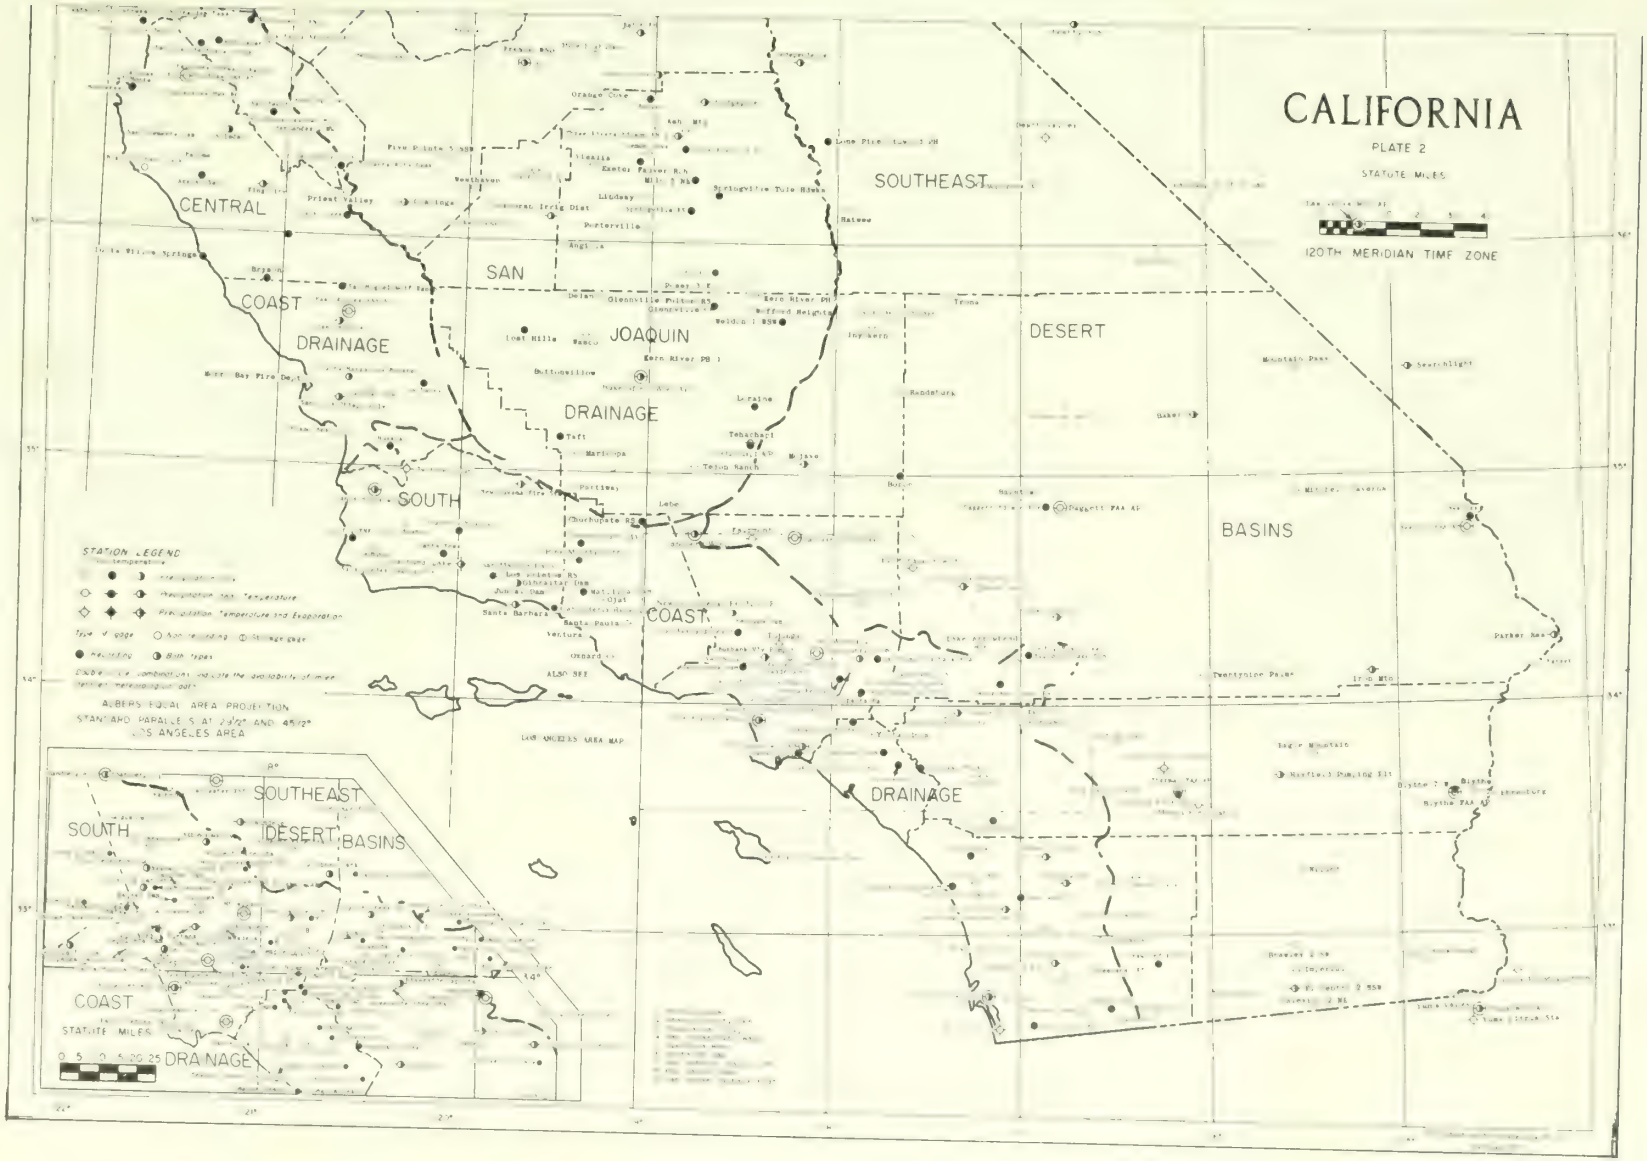
G Soil temperatures published.



**Years of record as shown in the Station Index are approximate since gaps in records may not have been considered in arriving at the totals shown.**

**formation concerning the history of changes in locations, elevations, exposure, etc., of substations through 1957 may be found in the publication "Sub-ation History" for this State, price $1.25. Similar information for regular National Weather Service Offices may be found in the latest annual issue Local Climatological Data, price 30 cents. Note minimum charge and ordering instructions below.**

Subscription Price: $5.80 per year for each section including annual summary; $7.25 foreign, 45¢ single copy, $1.00 foreign; 45¢ annual summary, $1.00 foreign. There is a minimum charge of $3.00 for each order of shelf-stocked issues of publications.
Make checks payable to Department of Commerce, NOAA; send payments and orders to: National Climatic Center, Federal Building, Asheville, N.C. 28801

# REFERENCE NOTES

This Bulletin is prepared in Cooperation with Department of Water Resources, State of California

Additional information regarding the climate of this State may be obtained by writing to the National Climatic Center, Federal Building, Asheville, N.C. 28801, or to any Weather Service Office near you. Additional precipitation data are contained in the "HOURLY PRECIPITATION DATA" for this State.

DIMENSIONAL UNITS: Unless otherwise indicated, dimensional units used in this bulletin are: Temperature in °F, precipitation and evaporation in inches and wind movement in miles. Monthly degree day totals are the sums of the negative departures of average daily temperatures from 65°F. In "Supplemental Data" table directions entered in figures are tens of degrees. Resultant wind is the vector sum of wind directions and speeds divided by the number of observations.

OBSERVATION TIME: The Station Index shows observation times in local standard time. During the summer months some observers take the observations on daylight saving time. Snow on ground in the "Snowfall and Snow on Ground" table is at observation time for all except National Weather Service Offices and FAA stations. For these stations snow on ground values are at 4:00 a.m., p.s.t., except for Bishop WSO, Blue Canyon WSO, and Sandberg WSO, which are taken at 6 a.m., p.s.t., and Mt. Shasta WSO at 8:00 a.m., p.s.t. Data in the "Extremes" table, "Daily Precipitation" table, "Daily Temperature" table, "Evaporation and Wind" table, and snowfall in the "Snowfall and Snow on Ground" table, when published, are for the 24 hours ending at time of observation.

EVAPORATION is measured in the standard Weather Service-type pan of 4-foot diameter unless otherwise noted below in the "Evaporation and Wind" table. Max and Min values in the "Evaporation and Wind" table are extremes of temperature of water in pan as recorded during 24 hours ending at time of observation. Wind is the total wind movement in miles over the evaporation pan as determined by a continuous anemometer recorder located 6-8 inches above the pan.

WATER EQUIVALENT values published in the "Snowfall and Snow on Ground" table are the water equivalent of snow, sleet, or ice on the ground. Samples for obtaining measurements are taken from different points for successive observations; consequently, occasional drifting and other causes of local variability in the snowpack may result in apparent inconsistencies in the record. Time of observation 10:00 a.m., p.s.t.

SNOWFALL: Entries of snowfall in the "Monthly Summarized Data" table, the "Snowfall and Snow on Ground" table, and in the "Seasonal Snowfall" table, include snow and sleet. Entries of snow on ground include snow, sleet, and ice.

NORMALS for all stations are climatological standard normals based on the period 1941-1970.

DIVISIONS, as used in this publication, became effective with data for January 1941.

STATION NAMES: Figures and letters following the station name, such as 12 SSW, indicate distance in miles and directions from the post office.

SEASONAL TABLES: Monthly and seasonal snowfall and heating degree days for the 12 months ending with the preceding June data will be carried in the July issue of this bulletin.

EVAPORATION AND WIND TABLE: Friant Government Camp : Pan screen covered.

DAILY SOIL TEMPERATURE TABLE:

| | Soil Type | Soil Cover | Degree of Slope |
|---|---|---|---|
| Brawley 2 SW | : Holtville silty clay | Grass | 0% |
| Davis 2 WSW Exp Farm | : Sandy loam | Bare | 2% |
| Fresno WSO AP | : Atwater sandy loam | Bare | 0% |
| Indio U.S. Date Garden | : Sandy loam | Bare | 0% |

LATE REPORTS AND CORRECTIONS will be carried only in the June and December issues of this bulletin.

INTERPOLATED VALUES for monthly precipitation totals may be found in the annual issue of this publication.

IN THE DATA TABLES THE SYMBOLS AND LETTERS WHEN USED INDICATE THE FOLLOWING:

- \- No record in the "Supplemental Data" table, "Daily Precipitation" table, "Evaporation and Wind" table, "Snowfall and Snow on Ground" table, "Daily Soil Temperatures" table.
  No record in the "Monthly Summarized Data" table and the "Daily Temperature" table is indicated by no entry.
- \+ And also on an earlier date or dates.
- ++ Highest observed one minute windspeed. This station is not equipped with an instrument to measure fastest mile data.
- * Amount included in following measurement, time distribution unknown.
- // Gage is equipped with a windshield.
- ǂ Extreme occurred at station with incomplete data which may have been exceeded.
- B Adjusted to a full month.
- D Water equivalent of snowfall wholly or partly estimated, using a ratio of 1 inch water equivalent to every 10 inches of new snowfall.
- M One or more days of record missing; if average value is entered, less than 10 days record is missing. See "Daily Temperature" table for detailed daily record. Degree day data, if carried for this station, have been adjusted to represent the value for a full month.
- R Amounts from recording gage. (These amounts are essentially accurate but may vary slightly from the amounts to be published later in Hourly Precipitation Data.)
- T Trace, an amount too small to measure.
- V Includes total for previous month.

IN THE STATION INDEX THE SYMBOLS AND LETTERS WHEN USED INDICATE THE FOLLOWING:

- AR This entry in time of observation column in Station Index means after rain
- C Recording Rain Gage Station. Hourly precipitation values are processed for special purposes, and are published later in the "Hourly Precipitation Data" bulletin. If daily amounts are published in "Climatological Data" bulletin they are from a separate non-recording gage, except where indicated by reference 'R'. Such amounts may differ from amounts published from the recording gage in the "Hourly Precipitation Data" bulletin.
- G "Soil Temperature" table.
- H "Snowfall and Snow on Ground" table. Omission of data in any month indicates no snowfall and/or snow on ground in that month.
- J "Supplemental Data" table.
- SS This entry in time of observation column in Station Index means observations made near sunset.
- VAR This entry in time of observation column in Station Index means variable.
- ᵠ Thermometers are generally exposed in a shelter located a few feet above sod-covered ground; however, this reference indicates that the thermometers are exposed in a shelter located on the roof of a building.

Stations appearing in the tables with no data were either missing or received too late to be included in this issue.

General weather conditions in the U.S. for each month are described in the CLIMATOLOGICAL DATA NATIONAL SUMMARY and STORM DATA.

Information concerning the history of changes in locations, elevations, exposure, etc., of substations through 1955 may be found in the publication "Substation History" for this State, price $1.25. Similar information for regular National Weather Service Offices may be found in the latest annual issue of Local Climatological Data, price 30 cents. Note minimum charge and ordering instructions below.

Subscription Price: $5.85 per year for each section including annual summary; $13.00 foreign; 45¢ single copy; $1.00 foreign; 45¢ annual summary; $1.00 foreign. There is a minimum charge of $3.00 for each order of shelf-stocked issues of publications.
Make checks payable to Department of Commerce, NOAA; send payments and orders to: National Climatic Center, Federal Building, Asheville, N.C. 28801.

# Climatological Data

CALIFORNIA

## TEMPERATURE AND PRECIPITATION EXTREMES

| | | | |
|---|---|---|---|
| HIGHEST TEMPERATURE: | 2 STATIONS | [illegible] | DATE 26 |
| LOWEST TEMPERATURE: | BODIE | -9 | DATE 09 |
| GREATEST TOTAL PRECIPITATION: | LYTLE CREEK RANGER STA | 30.89 | |
| LEAST TOTAL PRECIPITATION: | MARICOPA | .65 | |
| GREATEST 1 DAY PRECIPITATION: | TOPANGA PATROL STA FC6 | 8.30 | DATE 17 |
| GREATEST TOTAL SNOWFALL: | TWIN LAKES | 139.5 | |
| GREATEST DEPTH OF SNOW OR ICE: | ECHO SUMMIT | [illegible] | DATE 22 |

# REFERENCE NOTES

This Bulletin is prepared in Cooperation with Department of Water Resources, State of California

Additional information regarding the climate of this State may be obtained by writing to the National Climatic Center, Federal Building, Asheville, N.C. 28801, or to any Weather Service Office near you. Additional precipitation data are contained in the "HOURLY PRECIPITATION DATA" for this State.

DIMENSIONAL UNITS: Unless otherwise indicated, dimensional units used in this bulletin are: Temperature in °F, precipitation and evaporation in inches and wind movement in miles. Monthly degree day totals are the sums of the negative departures of average daily temperatures from 65°F. In "Supplemental Data" table directions entered in figures are tens of degrees. Resultant wind is the vector sum of wind directions and speeds divided by the number of observations.

OBSERVATION TIME: The Station Index shows observation times in local standard time. During the summer months some observers take the observations on daylight saving time. Snow on ground in the "Snowfall and Snow on Ground" table is at observation time for all except National Weather Service Offices and FAA stations. For these stations snow on ground values are at 4:00 a.m., p.s.t., except for Bishop WSO, Blue Canyon WSO, and Sandberg WSO, which are taken at 6 a.m., p.s.t., and Mt. Shasta WSO at 8:00 a.m., p.s.t. Data in the "Extremes" table, "Daily Precipitation" table, "Daily Temperature" table, "Evaporation and Wind" table, and snowfall in the "Snowfall and Snow on Ground" table, when published, are for the 24 hours ending at time of observation.

EVAPORATION is measured in the standard Weather Service-type pan of 4-foot diameter unless otherwise noted below in the "Evaporation and Wind" table. Max and Min values in the "Evaporation and Wind" table are extremes of temperature of water in pan as recorded during 24 hours ending at time of observation. Wind is the total wind movement in miles over the evaporation pan as determined by a continuous anemometer recorder located 6-8 inches above the pan.

WATER EQUIVALENT values published in the "Snowfall and Snow on Ground" table are the water equivalent of snow, sleet, or ice on the ground. Samples for obtaining measurements are taken from different points for successive observations; consequently, occasional drifting and other causes of local variability in the snowpack may result in apparent inconsistencies in the record. Time of observation 10:00 a.m., p.s.t.

SNOWFALL: Entries of snowfall in the "Monthly Summarized Data" table, the "Snowfall and Snow on Ground" table, and in the "Seasonal Snowfall" table, include snow and sleet. Entries of snow on ground include snow, sleet, and ice.

NORMALS for all stations are climatological standard normals based on the period 1941-1970.

DIVISIONS, as used in this publication, became effective with data for January 1941.

STATION NAMES: Figures and letters following the station name, such as 12 SSW, indicate distance in miles and directions from the post office.

SEASONAL TABLES: Monthly and seasonal snowfall and heating degree days for the 12 months ending with the preceding June data will be carried in the July issue of this bulletin.

EVAPORATION AND WIND TABLE: Friant Government Camp : Pan screen covered.

DAILY SOIL TEMPERATURE TABLE:

| | Soil Type | Soil Cover | Degree of Slope |
|---|---|---|---|
| Brawley 2 SW | : Holtville silty clay | Grass | 0% |
| Davis 2 WSW Exp Farm | : Sandy loam | Bare | 2% |
| Fresno WSO AP | : Atwater sandy loam | Bare | 0% |
| Indio U.S. Date Garden | : Sandy loam | Bare | 0% |

LATE REPORTS AND CORRECTIONS will be carried only in the June and December issues of this bulletin.

INTERPOLATED VALUES for monthly precipitation totals may be found in the annual issue of this publication.

IN THE DATA TABLES THE SYMBOLS AND LETTERS WHEN USED INDICATE THE FOLLOWING:

- \- No record in the "Supplemental Data" table, "Daily Precipitation" table, "Evaporation and Wind" table, "Snowfall and Snow on Ground" table, "Daily Soil Temperatures" table.
  No record in the "Monthly Summarized Data" table and the "Daily Temperature" table is indicated by no entry.
- \+ And also on an earlier date or dates.
- ++ Highest observed one minute windspeed. This station is not equipped with an instrument to measure fastest mile data.
- * Amount included in following measurement, time distribution unknown.
- // Gage is equipped with a windshield.
- ‡ Extreme occurred at station with incomplete data which may have been exceeded.
- B Adjusted to a full month.
- D Water equivalent of snowfall wholly or partly estimated, using a ratio of 1 inch water equivalent to every 10 inches of new snowfall.
- M One or more days of record missing; if average value is entered, less than 10 days record is missing. See "Daily Temperature" table for detailed daily record. Degree day data, if carried for this station, have been adjusted to represent the value for a full month.
- R Amounts from recording gage. (These amounts are essentially accurate but may vary slightly from the amounts to be published later in Hourly Precipitation Data.)
- T Trace, an amount too small to measure.
- V Includes total for previous month.

IN THE STATION INDEX THE SYMBOLS AND LETTERS WHEN USED INDICATE THE FOLLOWING:

- AR This entry in time of observation column in Station Index means after rain.
- C Recording Rain Gage Station. Hourly precipitation values are processed for special purposes, and are published later in the "Hourly Precipitation Data" bulletin. If daily amounts are published in "Climatological Data" bulletin they are from a separate non-recording gage, except where indicated by reference 'R'. Such amounts may differ from amounts published from the recording gage in the "Hourly Precipitation Data" bulletin.
- G "Soil Temperature" table.
- H "Snowfall and Snow on Ground" table. Omission of data in any month indicates no snowfall and/or snow on ground in that month.
- J "Supplemental Data" table.
- SS This entry in time of observation column in Station Index means observations made near sunset.
- VAR This entry in time of observation column in Station Index means variable.
- ¶ Thermometers are generally exposed in a shelter located a few feet above sod-covered ground; however, this reference indicates that the thermometers are exposed in a shelter located on the roof of a building.

Stations appearing in the tables with no data were either missing or received too late to be included in this issue.

General weather conditions in the U.S. for each month are described in the CLIMATOLOGICAL DATA NATIONAL SUMMARY and STORM DATA.

Information concerning the history of changes in locations, elevations, exposure, etc., of substations through 1955 may be found in the publication "Substation History" for this State, price $1.25. Similar information for regular National Weather Service Offices may be found in the latest annual issue of Local Climatological Data, price 30 cents. Note minimum charge and ordering instructions below.

Subscription Price: $5.85 per year for each section including annual summary; $13.00 foreign; 45¢ single copy; $1.00 foreign; 45¢ annual summary; $1.00 foreign. There is a minimum charge of $3.00 for each order of shelf-stocked issues of publications.
Make checks payable to Department of Commerce, NOAA; send payments and orders to: National Climatic Center, Federal Building, Asheville, N.C. 28801.

# REFERENCE NOTES

This Bulletin is prepared in Cooperation with Department of Water Resources, State of California

Additional information regarding the climate of this State may be obtained by writing to the National Climatic Center, Federal Building, Asheville, N.C. 28801, or to any Weather Service Office near you. Additional precipitation data are contained in the "HOURLY PRECIPITATION DATA" for this State.

DIMENSIONAL UNITS: Unless otherwise indicated, dimensional units used in this bulletin are: Temperature in °F, precipitation and evaporation in inches and wind movement in miles. Monthly degree day totals are the sums of the negative departures of average daily temperatures from 65°F. In "Supplemental Data" table directions entered in figures are tens of degrees. Resultant wind is the vector sum of wind directions and speeds divided by the number of observations.

OBSERVATION TIME: The Station Index shows observation times in local standard time. During the summer months some observers take the observations on daylight saving time. Snow on ground in the "Snowfall and Snow on Ground" table is at observation time for all except National Weather Service Offices and FAA stations. For these stations snow on ground values are at 4:00 a.m., p.s.t., except for Bishop WSO, Blue Canyon WSO, and Sandberg WSO, which are taken at 6 a.m., p.s.t., and Mt. Shasta WSO at 8:00 a.m., p.s.t. Data in the "Extremes" table, "Daily Precipitation" table, "Daily Temperature" table, "Evaporation and Wind" table, and snowfall in the "Snowfall and Snow on Ground" table, when published, are for the 24 hours ending at time of observation.

EVAPORATION is measured in the standard Weather Service-type pan of 4-foot diameter unless otherwise noted below in the "Evaporation and Wind" table. Max and Min values in the "Evaporation and Wind" table are extremes of temperature of water in pan as recorded during 24 hours ending at time of observation. Wind is the total wind movement in miles over the evaporation pan as determined by a continuous anemometer recorder located 6-8 inches above the pan.

WATER EQUIVALENT values published in the "Snowfall and Snow on Ground" table are the water equivalent of snow, sleet, or ice on the ground. Samples for obtaining measurements are taken from different points for successive observations; consequently, occasional drifting and other causes of local variability in the snowpack may result in apparent inconsistencies in the record. Time of observation 10:00 a.m., p.s.t.

SNOWFALL: Entries of snowfall in the "Monthly Summarized Data" table, the "Snowfall and Snow on Ground" table, and in the "Seasonal Snowfall" table, include snow and sleet. Entries of snow on ground include snow, sleet, and ice.

NORMALS for all stations are climatological standard normals based on the period 1941-1970.

DIVISIONS, as used in this publication, became effective with data for January 1941.

STATION NAMES: Figures and letters following the station name, such as 12 SSW, indicate distance in miles and directions from the post office.

SEASONAL TABLES: Monthly and seasonal snowfall and heating degree days for the 12 months ending with the preceding June data will be carried in the July issue of this bulletin.

EVAPORATION AND WIND TABLE: Friant Government Camp : Pan screen covered.

DAILY SOIL TEMPERATURE TABLE:

| | Soil Type | Soil Cover | Degree of Slope |
|---|---|---|---|
| Brawley 2 SW | : Holtville silty clay | Grass | 0% |
| Davis 2 WSW Exp Farm | : Sandy loam | Bare | 2% |
| Fresno WSO AP | : Atwater sandy loam | Bare | 0% |
| Indio U.S. Date Garden | : Sandy loam | Bare | 0% |

LATE REPORTS AND CORRECTIONS will be carried only in the June and December issues of this bulletin.

INTERPOLATED VALUES for monthly precipitation totals may be found in the annual issue of this publication.

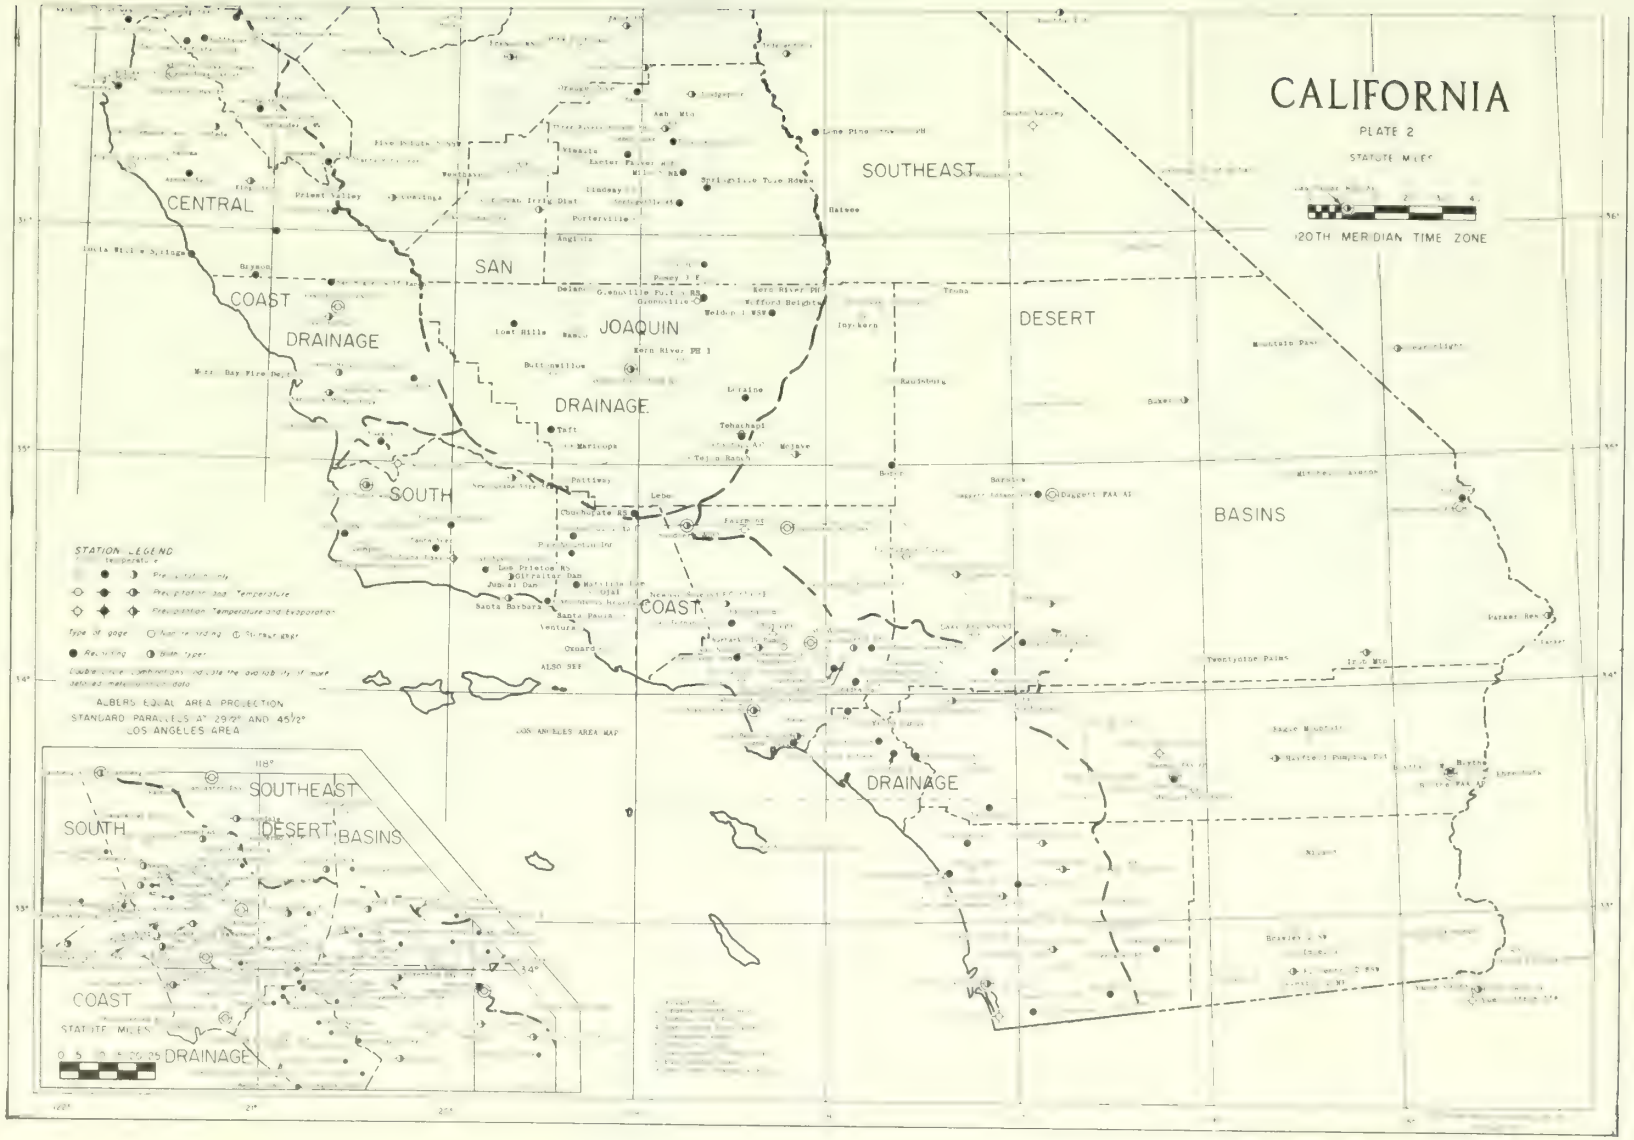
IN THE DATA TABLES THE SYMBOLS AND LETTERS WHEN USED INDICATE THE FOLLOWING:

- \- No record in the "Supplemental Data" table, "Daily Precipitation" table, "Evaporation and Wind" table, "Snowfall and Snow on Ground" table, "Daily Soil Temperatures" table.
  No record in the "Monthly Summarized Data" table and the "Daily Temperature" table is indicated by no entry.
- \+ And also on an earlier date or dates.
- ++ Highest observed one minute windspeed. This station is not equipped with an instrument to measure fastest mile data.
- * Amount included in following measurement, time distribution unknown.
- // Gage is equipped with a windshield.
- ⅟ Extreme occurred at station with incomplete data which may have been exceeded.
- B Adjusted to a full month.
- D Water equivalent of snowfall wholly or partly estimated, using a ratio of 1 inch water equivalent to every 10 inches of new snowfall.
- M One or more days of record missing; if average value is entered, less than 10 days record is missing. See "Daily Temperature" table for detailed daily record. Degree day data, if carried for this station, have been adjusted to represent the value for a full month.
- R Amounts from recording gage. (These amounts are essentially accurate but may vary slightly from the amounts to be published later in Hourly Precipitation Data.)
- T Trace, an amount too small to measure.
- V Includes total for previous month.

IN THE STATION INDEX THE SYMBOLS AND LETTERS WHEN USED INDICATE THE FOLLOWING:

- AR This entry in time of observation column in Station Index means after rain.
- C Recording Rain Gage Station. Hourly precipitation values are processed for special purposes, and are published later in the "Hourly Precipitation Data" bulletin. If daily amounts are published in "Climatological Data" bulletin they are from a separate non-recording gage, except where indicated by reference 'R'. Such amounts may differ from amounts published from the recording gage in the "Hourly Precipitation Data" bulletin.
- G "Soil Temperature" table.
- H "Snowfall and Snow on Ground" table. Omission of data in any month indicates no snowfall and/or snow on ground in that month.
- J "Supplemental Data" table.
- SS This entry in time of observation column in Station Index means observations made near sunset.
- VAR This entry in time of observation column in Station Index means variable.
- # Thermometers are generally exposed in a shelter located a few feet above sod-covered ground; however, this reference indicates that the thermometers are exposed in a shelter located on the roof of a building.

Stations appearing in the tables with no data were either missing or received too late to be included in this issue.



General weather conditions in the U.S. for each month are described in the CLIMATOLOGICAL DATA NATIONAL SUMMARY and STORM DATA.

Information concerning the history of changes in locations, elevations, exposure, etc., of substations through 1955 may be found in the publication "Substation History" for this State, price $1.25. Similar information for regular National Weather Service Offices may be found in the latest annual issue of Local Climatological Data, price 30 cents. Note minimum charge and ordering instructions below.

Subscription Price: $5.85 per year for each section including annual summary; $13.00 foreign; 45¢ single copy; $1.00 foreign; 45¢ annual summary; $1.00 foreign. There is a minimum charge of $3.00 for each order of shelf-stocked issues of publications.
Make checks payable to Department of Commerce, NOAA; send payments and orders to: National Climatic Center, Federal Building, Asheville, N.C. 28801.

SEE REFERENCE NOTES FOLLOWING STATION INDEX

This Bulletin is prepared in Cooperation with Department of Water Resources, State of California

Additional information regarding the climate of this State may be obtained by writing to the National Climatic Center, Federal Building, Asheville, N.C. 28801, or to any Weather Service Office near you. Additional precipitation data are contained in the "HOURLY PRECIPITATION DATA" for this State.

DIMENSIONAL UNITS: Unless otherwise indicated, dimensional units used in this bulletin are: Temperature in °F, precipitation and evaporation in inches and wind movement in miles. Monthly degree day totals are the sums of the negative departures of average daily temperatures from 65°F. In "Supplemental Data" table directions entered in figures are tens of degrees. Resultant wind is the vector sum of wind directions and speeds divided by the number of observations.

OBSERVATION TIME: The Station Index shows observation times in local standard time. During the summer months some observers take the observations on daylight saving time. Snow on ground in the "Snowfall and Snow on Ground" table is at observation time for all except National Weather Service Offices and FAA stations. For these stations snow on ground values are at 4:00 a.m., p.s.t., except for Bishop WSO, Blue Canyon WSO, and Sandberg WSO, which are taken at 6 a.m., p.s.t., and Mt. Shasta WSO at 8:00 a.m., p.s.t. Data in the "Extremes" table, "Daily Precipitation" table, "Daily Temperature" table, "Evaporation and Wind" table, and snowfall in the "Snowfall and Snow on Ground" table, when published, are for the 24 hours ending at time of observation.

EVAPORATION is measured in the standard Weather Service-type pan of 4-foot diameter unless otherwise noted below in the "Evaporation and Wind" table. Max and Min values in the "Evaporation and Wind" table are extremes of temperature of water in pan as recorded during 24 hours ending at time of observation. Wind is the total wind movement in miles over the evaporation pan as determined by a continuous anemometer recorder located 6-8 inches above the pan.

WATER EQUIVALENT values published in the "Snowfall and Snow on Ground" table are the water equivalent of snow, sleet, or ice on the ground. Samples for obtaining measurements are taken from different points for successive observations; consequently, occasional drifting and other causes of local variability in the snowpack may result in apparent inconsistencies in the record. Time of observation 10:00 a.m., p.s.t.

SNOWFALL: Entries of snowfall in the "Monthly Summarized Data" table, the "Snowfall and Snow on Ground" table, and in the "Seasonal Snowfall" table, include snow and sleet. Entries of snow on ground include snow, sleet, and ice.

NORMALS for all stations are climatological standard normals based on the period 1941-1970.

DIVISIONS, as used in this publication, became effective with data for January 1941.

STATION NAMES: Figures and letters following the station name, such as 12 SSW, indicate distance in miles and directions from the post office.

SEASONAL TABLES: Monthly and seasonal snowfall and heating degree days for the 12 months ending with the preceding June data will be carried in the July issue of this bulletin.

EVAPORATION AND WIND TABLE: Friant Government Camp : Pan screen covered.

DAILY SOIL TEMPERATURE TABLE:

| | Soil Type | Soil Cover | Degree of Slope |
|---|---|---|---|
| Brawley 2 SW | : Holtville silty clay | Grass | 0% |

LATE REPORTS AND CORRECTIONS will be carried only in the June and December issues of this bulletin.

INTERPOLATED VALUES for monthly precipitation totals may be found in the annual issue of this publication.

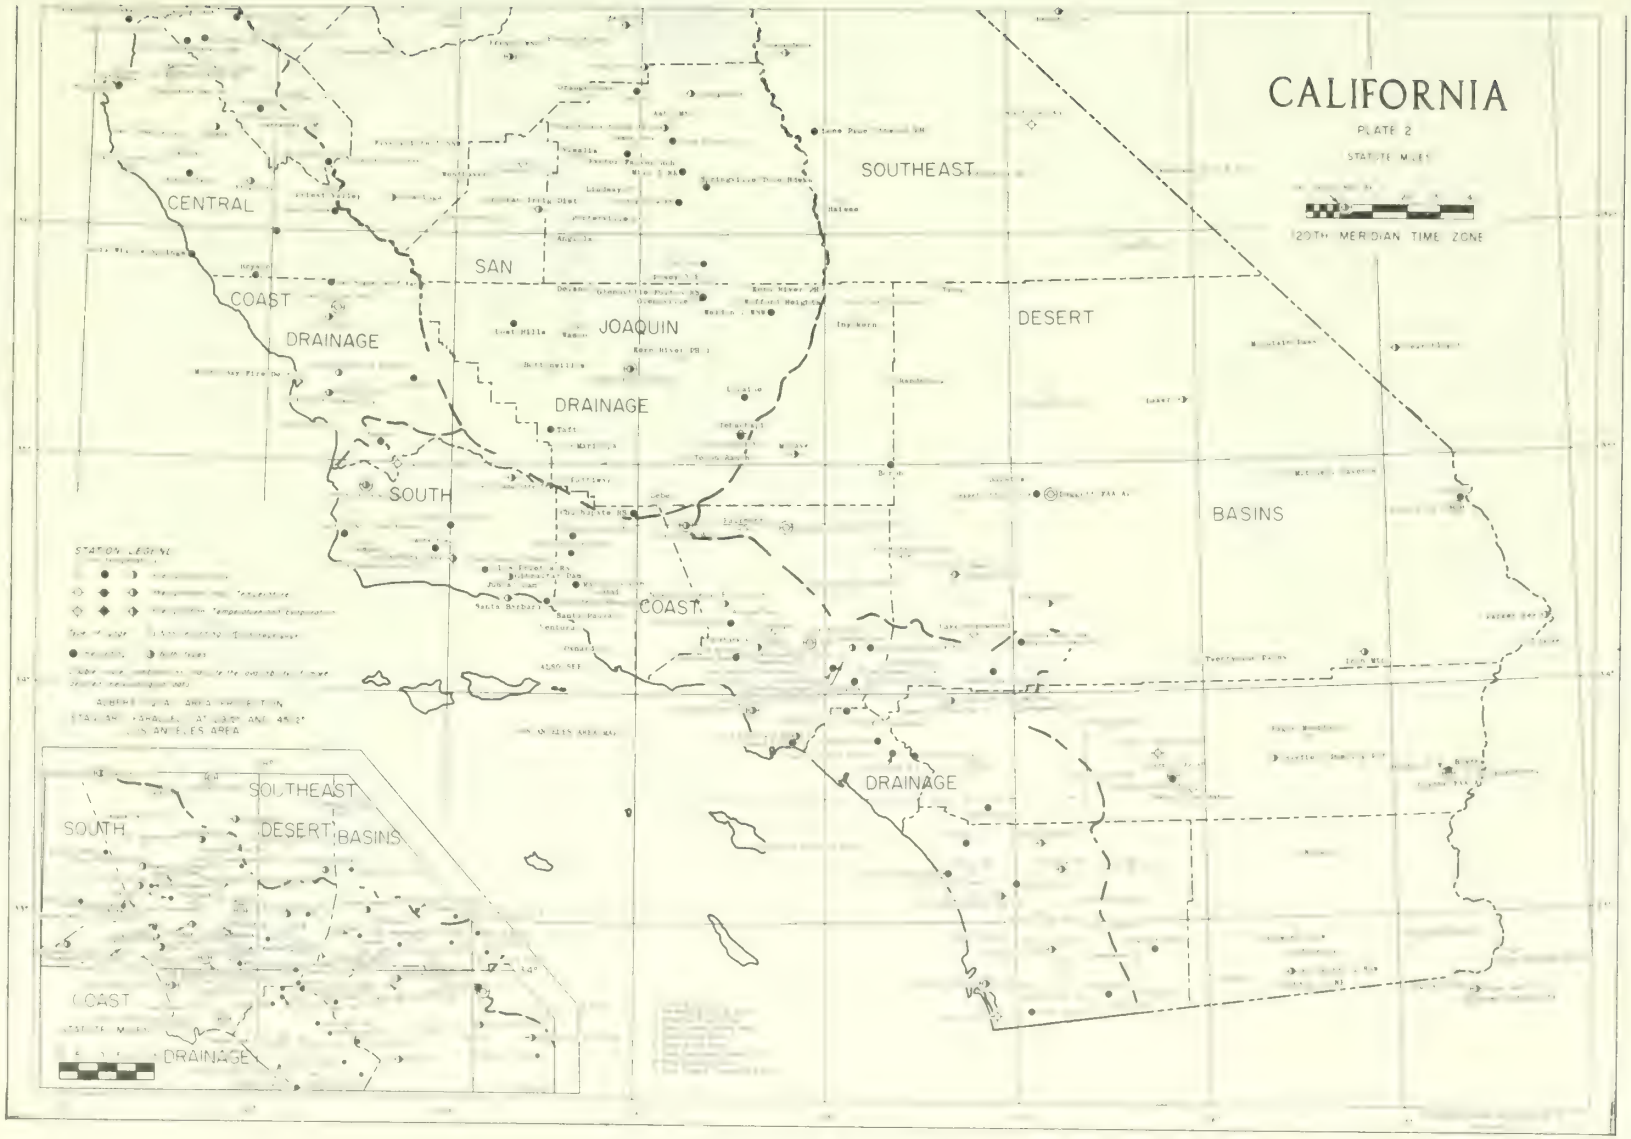
IN THE DATA TABLES THE SYMBOLS AND LETTERS WHEN USED INDICATE THE FOLLOWING:

- — No record in the "Supplemental Data" table, "Daily Precipitation" table, "Evaporation and Wind" table, "Snowfall and Snow on Ground" table, "Daily Soil Temperatures" table.
  No record in the "Monthly Summarized Data" table and the "Daily Temperature" table is indicated by no entry.
- \+ And also on an earlier date or dates.
- ++ Highest observed one minute windspeed. This station is not equipped with an instrument to measure fastest mile data.
- * Amount included in following measurement, time distribution unknown.
- // Gage is equipped with a windshield.
- ǂ Extreme occurred at station with incomplete data which may have been exceeded.
- B Adjusted to a full month.
- D Water equivalent of snowfall wholly or partly estimated, using a ratio of 1 inch water equivalent to every 10 inches of new snowfall.
- M One or more days of record missing; if average value is entered, less than 10 days record is missing. See "Daily Temperature" table for detailed daily record. Degree day data, if carried for this station, have been adjusted to represent the value for a full month.
- R Amounts from recording gage. (These amounts are essentially accurate but may vary slightly from the amounts to be published later in Hourly Precipitation Data.)
- T Trace, an amount too small to measure.
- V Includes total for previous month.

IN THE STATION INDEX THE SYMBOLS AND LETTERS WHEN USED INDICATE THE FOLLOWING:

- AR This entry in time of observation column in Station Index means after rain.
- C Recording Rain Gage Station. Hourly precipitation values are processed for special purposes, and are published later in the "Hourly Precipitation Data" bulletin. If daily amounts are published in "Climatological Data" bulletin they are from a separate non-recording gage, except where indicated by reference 'R'. Such amounts may differ from amounts published from the recording gage in the "Hourly Precipitation Data" bulletin.
- G "Soil Temperature" table.
- H "Snowfall and Snow on Ground" table. Omission of data in any month indicates no snowfall and/or snow on ground in that month.
- J "Supplemental Data" table.
- SS This entry in time of observation column in Station Index means observations made near sunset.
- VAR This entry in time of observation column in Station Index means variable.
- ♯ Thermometers are generally exposed in a shelter located a few feet above sod-covered ground; however, this reference indicates that the thermometers are exposed in a shelter located on the roof of a building.

Stations appearing in the tables with no data were either missing or received too late to be included in this issue.



General weather conditions in the U.S. for each month are described in the CLIMATOLOGICAL DATA NATIONAL SUMMARY and STORM DATA.

Information concerning the history of changes in locations, elevations, exposure, etc., of substations through 1955 may be found in the publication "Substation History" for this State, price $1.25. Similar information for regular National Weather Service Offices may be found in the latest annual issue of Local Climatological Data, price 30 cents. Note minimum charge and ordering instructions below.

Subscription Price: $5.85 per year for each section including annual summary; $13.00 foreign; 45¢ single copy; $1.00 foreign; 45¢ annual summary; $1.00 foreign. There is a minimum charge of $3.00 for each order of shelf-stocked issues of publications.
Make checks payable to Department of Commerce, NOAA; send payments and orders to: National Climatic Center, Federal Building, Asheville, N.C. 28801.
